

In accordance with UN GHS latest edition

Product: Shoreline Type LUX 0462

Version: 2

#### Section 1. Identification of the substance or the mixture and of the supplier

- **1.1 Product Identifier**
- Product identifier:Shoreline Type LUX 0462(Contains:1-(1,2,3,4,5,6,7,8-Octahydro-2,3,8,8-tetramethyl-2-<br/>naphthalenyl)ethanone, Acetyl cedrene, Linalool, Linalyl acetate)
- Other identifiers: None

## 1.2 Relevant identified uses of the substance of mixture and uses advised against

- Product uses: Fragrances
- **1.3 Details of the supplier of the safety data sheet**

| Company name:                  | Luxaroma Pty Ltd                                    |  |  |
|--------------------------------|---|--|--|
| Company address:               | 27 Union Circuit<br>Yatala<br>QLD 4207<br>Australia |  |  |
| Contact:                       | Regulatory Affairs                                  |  |  |
| E-Mail address:                | info@luxaroma.com.au                                |  |  |
| Company phone:                 | 1300 888 360  |  |  |
| 1.4 Emergency telephone number |   |  |  |
| Emergency phone:               | 1300 888 360  |  |  |

## Section 2. Hazards identification

#### 2.1 Classification of the substance or mixture

|                    | Flammable Liquid, Hazard Category 4                                   |  |  |  |
|--------------------|---|--|--|--|
| danger:            | Skin Corrosion / Irritation Category 2                                |  |  |  |
|                    | Eye Damage / Irritation Category 2<br>Sensitization - Skin Category 1 |  |  |  |
|                    |   |  |  |  |
|                    | Hazardous to the Aquatic Environment - Acute Hazard Category 2        |  |  |  |
|                    | Hazardous to the Aquatic Environment - Long-term Hazard Category 1    |  |  |  |
|                    | H227, Combustible liquid.   |  |  |  |
|                    | H315, Causes skin irritation.   |  |  |  |
|                    | H317, May cause an allergic skin reaction.                            |  |  |  |
|                    | H319, Causes serious eye irritation.                                  |  |  |  |
|                    | H401, Toxic to aquatic life.  |  |  |  |
|                    | H410, Very toxic to aquatic life with long lasting effects.           |  |  |  |
| 2.2 Label elements |   |  |  |  |
| Signal word:       | Warning   |  |  |  |
| Hazard statements: | H227, Combustible liquid.   |  |  |  |
|                    | H315, Causes skin irritation.   |  |  |  |
|                    | H317, May cause an allergic skin reaction.                            |  |  |  |

## Substances with workplace exposure limits, not listed above:

In accordance with UN GHS latest edition

Product: Shoreline Type LUX 0462

Version: 2

Not Applicable

## Section 4. First-aid measures

#### 4.1 Description of first aid measures

Inhalation: Remove from exposure site to fresh air, keep at rest, and obtain medical attention.

**Eye exposure:** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Skin exposure: IF ON SKIN: Wash with plenty of soap and water.

Ingestion: Rinse mouth with water and obtain medical attention.

#### 4.2 Most important symptoms and effects, both acute and delayed

Causes skin irritation.

May cause an allergic skin reaction.

Causes serious eye irritation.

## 4.3 Indication of any immediate medical attention and special treatment needed

None expected, see Section 4.1 for further information.

## Section 5: Firefighting measures

#### 5.1 Extinguishing media

Suitable media: Carbon dioxide, Dry chemical, Foam.

#### 5.2 Special hazards arising from the substance or mixture

In case of fire, may be liberated: Carbon monoxide, Unidentified organic compounds.

## 5.3 Advice for fire fighters:

In case of insufficient ventilation, wear suitable respiratory equipment.

## Section 6. Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures:

Avoid inhalation. Avoid contact with skin and eyes. See protective measures under Section 7 and 8.

#### 6.2 Environmental precautions:

Keep away from drains, surface and ground water, and soil.

#### 6.3 Methods and material for containment and cleaning up:

Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Contain spillage immediately by use of sand or inert powder. Dispose of according to local regulations.

## 6.4 Reference to other sections:

Also refer to sections 8 and 13.

In accordance with UN GHS latest edition

Product: Shoreline Type LUX 0462

Version: 2

#### Section 7. Handling and storage

#### 7.1 Precautions for safe handling:

Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Use personal protective equipment as required. Use in accordance with good manufacturing and industrial hygiene practices. Use in areas with adequate ventilation Do not eat, drink or smoke when using this product.

#### 7.2 Conditions for safe storage, including any incompatibilities:

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Ground/bond container and receiving equipment. Use explosion-proof electrical, ventilating and lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge.

#### 7.3 Specific end use(s):

Fragrances: Use in accordance with good manufacturing and industrial hygiene practices.

#### Section 8. Exposure controls/personal protection

#### 8.1 Control parameters

Workplace exposure limits: Not Applicable

#### 8.2 Exposure Controls

#### Eye / Skin Protection

Wear protective gloves/eye protection/face protection

#### **Respiratory Protection**

Under normal conditions of use and where adequate ventilation is available to prevent build up of excessive vapour, this material should not require special engineering controls. However, in conditions of high or prolonged use, or high temperature or other conditions which increase exposure, the following engineering controls can be used to minimise exposure to personnel: a) Increase ventilation of the area with local exhaust ventilation. b) Personnel can use an approved, appropriately fitted respirator with organic vapour cartridge or canisters and particulate filters. c) Use closed systems for transferring and processing this material.

Also refer to Sections 2 and 7.

#### Section 9. Physical and chemical properties

## 9.1 Information on basic physical and chemical properties

| Appearance:                     | Clear Yellow   |
|---------------------------------|----------------|

| 9.2 Other information:                        | None available                               |

#### Section 10. Stability and reactivity

#### 10.1 Reactivity:

Presents no significant reactivity hazard, by itself or in contact with water.

#### 10.2 Chemical stability:

Good stability under normal storage conditions.

#### 10.3 Possibility of hazardous reactions:

Not expected under normal conditions of use.

#### 10.4 Conditions to avoid:

Avoid extreme heat.

#### 10.5 Incompatible materials:

Avoid contact with strong acids, alkalis or oxidising agents.

#### 10.6 Hazardous decomposition products:

Not expected.

#### Section 11. Toxicological information

#### 11.1 Information on toxicological effects

This mixture has not been tested as a whole for health effects. The health effects have been calculated using the methods outlined in UN GHS.

| Acute Toxicity:            | Based on available data the classification criteria are not met. |
|----------------------------|--|
| Acute Toxicity Oral        | >5000  |
| Acute Toxicity Dermal      | >5000  |
| Acute Toxicity Inhalation  | Not Available  |
| Skin corrosion/irritation: | Skin Corrosion / Irritation Category 2                           |

Refer to Sections 2 and 3 for additional information.

## Section 12. Ecological information

#### 12.1 Toxicity:

Very toxic to aquatic life with long lasting effects.

| 12.2 Persistence and degradability: | Not available |
|-------------------------------------|---------------|
| 12.3 Bioaccumulative potential:     | Not available |
| 12.4 Mobility in soil:              | Not available |
| 12.5 Other adverse effects:         | Not available |

# Section 13. Disposal considerations

# 13.1 Waste treatment methods:

Dispose of in accordance with local regulations. Avoid disposing into drainage systems and into the environment. Empty containers should be taken to an approved waste handling site for recycling or disposal.
